GAMEROOM
TELE-PONG™

Electronic Tennis Game. Turns your TV set into a family tennis court. Play tennis, table tennis or squash. Two controls for realistic action. Attack the net; lag back for a lob. Vary the speed of the ball. Unique "automatic player" feature. Just flip a switch and you can play against the "automatic player". He never misses—always returns the ball. Great for practice. Includes score-keeping dials and vertical and horizontal hold control. Realistic "pong" sound. Automatic ball serving. One wire hook-up to antenna screw on the back of any size black and white or color TV set with U.H.F.

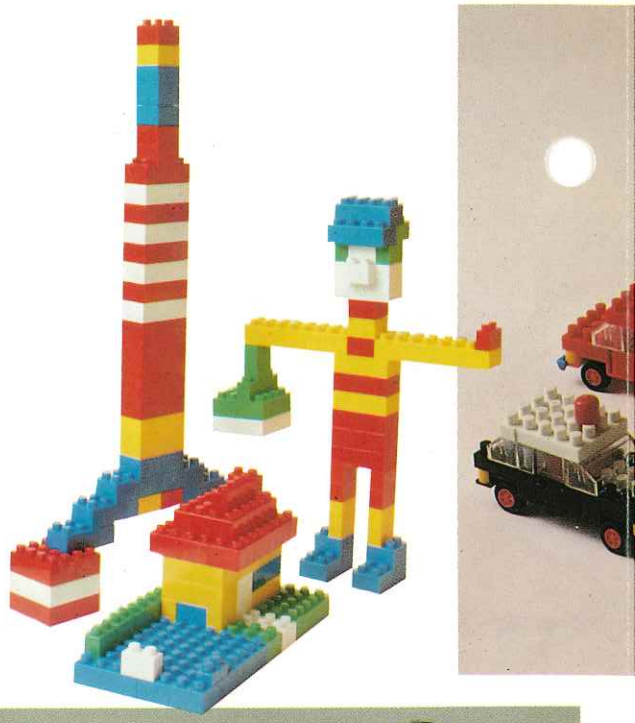
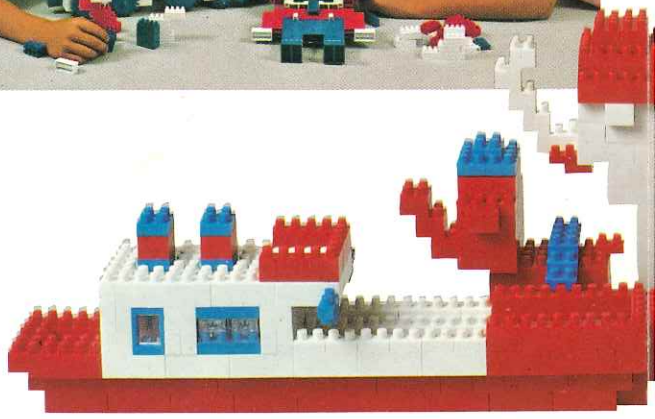
LOC BLOC™

CONSTRUCTION TOYS





FAST BECOMING THE LEADING LINE IN CONSTRUCTION TOYS.

- 16 items in all price ranges
- Giant and standard size Loc Blocs™
- Choose as many (or as few) as *you* wish
- More fun at lower prices

These sets are designed to provide the child with an endless number of construction projects using his imagination and creativity. Each set contains Loc Blocs in a variety of shapes and bright colors, easy to assemble, and yet, easy to take apart. All sets are complete and self-contained. Accessories are included. There is nothing else to buy. However, one set can be combined with another to make larger projects—all Loc Blocs are compatible. Loc Blocs can make animals, buildings, cranes, trucks, cars, soldiers, doll furniture, castles, airplanes, games, windmills and an infinite number of other things, limited only by the child's imagination.

Loc Blocs are durable, brightly colored, easy to use, safe and non-toxic. Recommended for children 5-12.

#1031

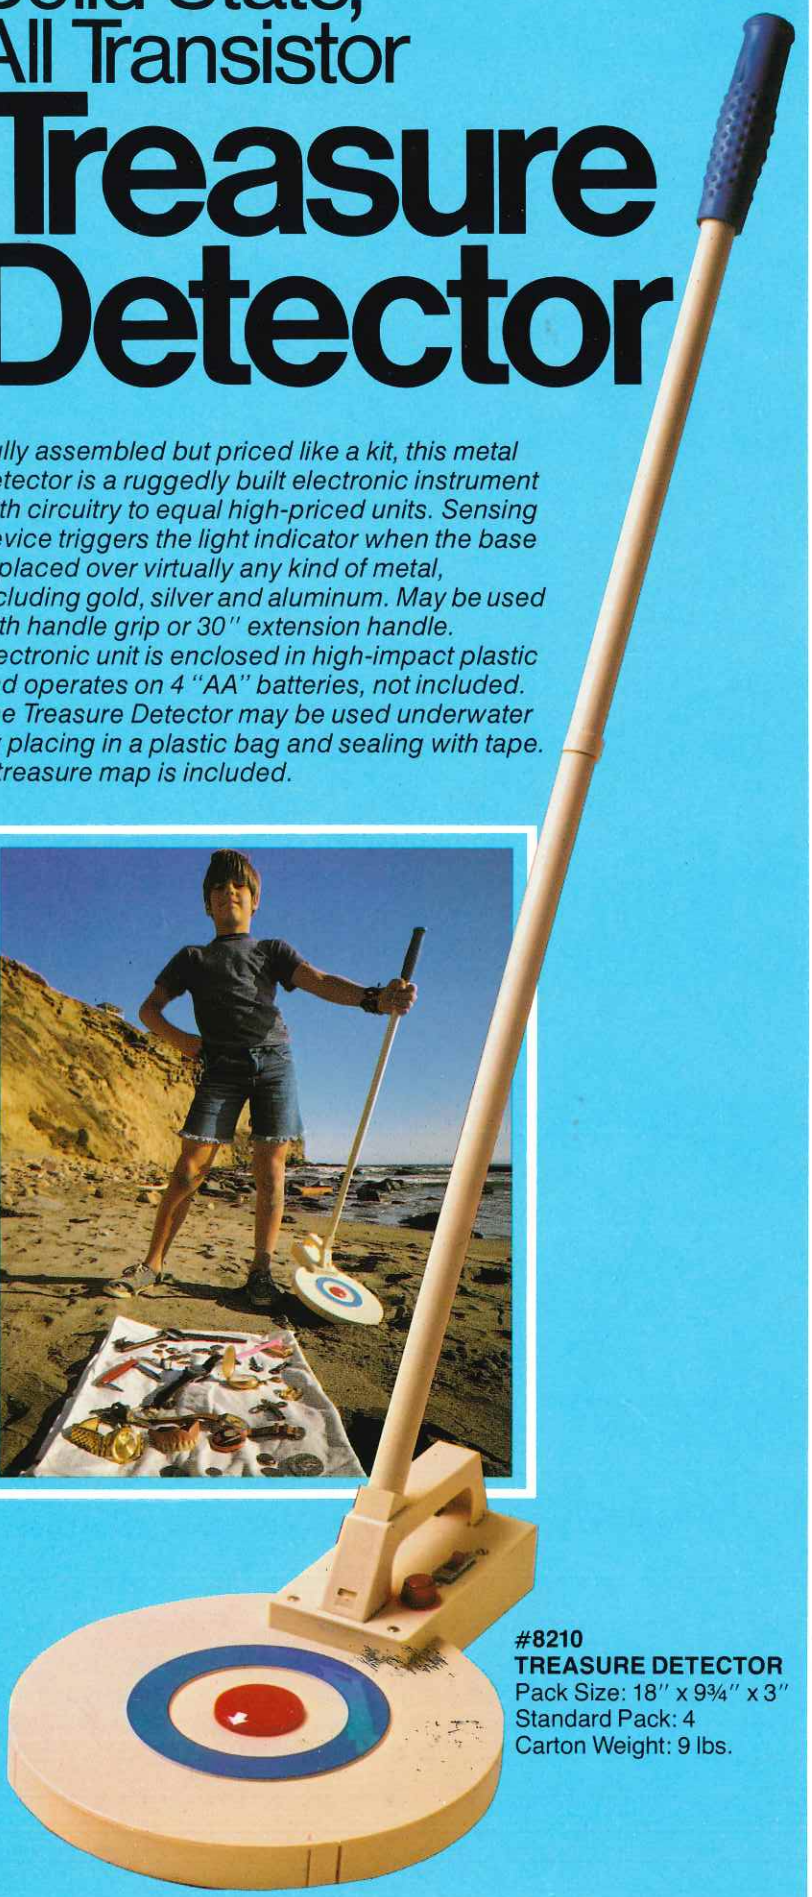
Solid State, All Transistor Treasure Detector

Fully assembled but priced like a kit, this metal detector is a ruggedly built electronic instrument with circuitry to equal high-priced units. Sensing device triggers the light indicator when the base is placed over virtually any kind of metal, including gold, silver and aluminum. May be used with handle grip or 30" extension handle. Electronic unit is enclosed in high-impact plastic and operates on 4 "AA" batteries, not included. The Treasure Detector may be used underwater by placing in a plastic bag and sealing with tape. A treasure map is included.



#8210
TREASURE DETECTOR
